

SATYAM PRAJAPATI

Full Stack Developer | MERN + TypeScript +Next JS + Databases

Greater Noida , UP, India | officialsatyam0777@gmail.com | [+91 7985792091](tel:+917985792091) | [GitHub](#) | [Leetcode](#) | [LinkedIn](#)

About Me

Computer Science student skilled in **Full-Stack Development** (MERN, Next.js + TypeScript).Built responsive UIs, integrated scalable backends, and solved **150+ DSA problems** on LeetCode and continue to do. Currently working on real-world projects and exploring **DevOps** and **System Design**

Tech Stack

- **Languages:** JavaScript, TypeScript, C++, HTML, CSS
 - **Frontend:** React.js, Tailwind CSS, UI/UX (Figma)
 - **Backend:** Node.js, Express.js, Prisma, REST APIs, Web Sockets
 - **Databases:** MongoDB, PostgreSQL
 - **Dev Tools:** Git, GitHub, Postman, VS Code, WSL (Ubuntu)
 - **Currently Learning:** DevOps (Docker, Linux, CI/CD), System Design
-

Projects

1. 🐾 VetCare – Veterinary Hospital Management Platform

[Live Demo](#) | [GitHub](#)

Tech Stack: React, TailwindCSS, Vite, Javascript etc

- Built a full-featured appointment and profile management system for pet hospitals.
- Features include pet booking, doctor profiles, health tracking, and subscription plans.
- Used React Router for SPA navigation and deployed on Vercel.

2. Second Brain (Next.js + TypeScript + PostgreSQL) — *[In Development]*

An intelligent personal vault to store and organize important info, notes, links, and thoughts you don't want to forget.

- Tech Stack: Next.js, TypeScript, Prisma ORM, PostgreSQL, Monorepo architecture
- Designed to help users tag, retrieve, and organize useful knowledge
- Planned features: full-text search, markdown support, and daily review system

3. Blog App

- Built a modern blog platform with React, Tailwind, Node.js, and MongoDB
 - Designed user-friendly UI/UX using Figma and component-based React architecture
 - Backend APIs (Auth, CRUD) under active development
-

Education

B.Tech in Computer Science Engineering - (CGPA – 7.6)

KCC Institute of Technology and Management, Greater Noida, Uttar Pradesh (Expected May 2026)

Achievements & Practice

- Solved **150+ DSA problems** on **LeetCode**
 - Consistent practice on [Leetcode](#)
 - Participated in 100xDevs Cohort by Harkirat Singh
-

Additional

- Familiar with API integration, Authentication (JWT), and responsive UI
- Comfortable working with Git, GitHub, and debugging tools
